WSD PRODUCTION REMODEL

March 17, 2017,

Wisconsin Shower Door's motto is "Proud of our Past & Focused on our Future." In the past couple of years we have been able to add new equipment and technology in an effort to keep focused on our future of being your full service glass fabricator.

We are excited to announce that we are beginning installation of a new glass storage system and a new cutting and breakout table beginning next week! This new equipment will allow for additional production capacity while providing greater safety for our employees.

This production remodel requires us to shift our delivery dates and inventory supply while the new equipment is installed. Please see the attached schedule for the adjustments that have been made to order cut-off dates and delivery dates.

Thank you in advance for your flexibility,

Wisconsin Shower Door
